

Environmental Policy

Issue No 16

The Board of Directors of John Wainwright & Co Ltd, holds Environmental management as a key business value.

In addition to statutory and other requirements, the directors treat and regard the environment as a business priority with continual improvement, the prevention of pollution, Climate change mitigation, and the protection of biodiversity & ecosystems as key objectives.

Protecting the environment is a condition of employment for all employees and contractors.

We are committed to caring for the environment, through the implementation of the following goals:

- Environmental Management is a business priority
- Ensuring continual improvement in environmental standards & performance
- Raising competence through instruction, training & support
- An engaged workforce involvement in all Environmental matters
- Understanding our environmental responsibilities
- Zero tolerance towards unacceptable environmental practices
- Reducing environmental impact through working toward a more sustainable business
- Active and visible leadership
- Promoting the use of sustainable recycling initiatives within the business

Effective implementation of the above requires the support and commitment of everyone working for John Wainwright & Co Ltd and you are required to comply.

Everyone can make a difference.

Peter Barkwill
CEO
